

Veriday
Cloud Foundation

Successful cloud adoption starts with the right foundation.

Embark on your journey to the Cloud by embracing cloud-native thinking with the right foundations.

Across every industry, organizations are moving away from traditional IT infrastructure and investing in Cloud technologies. With our Cloud Foundation solution, you can mitigate risks and reduce inefficiencies - so you can manage cost, simplify compliance, improve security and accelerate time to delivery.

Achieve your business goals

Reduce Costs

By transitioning to the Cloud, you can significantly reduce the capital expenses associated with data center infrastructure and overhead as you move from a CAPEX to an OPEX model.

Improve Performance

By employing Veriday's smarter Cloud Migration strategies, you can more effectively plan and deliver a successful Cloud solution and avoid latency or reliability issues.

Ensure Business Continuity

With an advanced Cloud computing strategy from Veriday, you can reliably reduce downtime, boost availability and protect valuable business assets.

Improve Security and Compliance

Veriday employs a forward-thinking approach to Cloud Security, allowing you to reduce risk and increase operational agility.

Get more from the Cloud with Veriday's Cloud Foundation solution

Whether you need to replace a poorly implemented cloud solution or build a new greenfield cloud environment, our Cloud Foundation solution has got you covered.

Cloud Readiness

We assess your organization's cloud readiness and develop a strong, scalable and cost-efficient cloud infrastructure for your business.

Cloud Strategy & Economics

As your trusted cloud advisor, we keep you ahead in the Cloud. We also provide inbuilt cost efficiency and management and proactive billing alerts.

Cloud Security & Compliance

We ensure comprehensive security to protect your data, end-to-end encryption and manage continued compliance requirements for CIS, ISO 27001, CSA, PCI-DSS & APRA guidelines.

Cloud Automation & DevOps

We ensure your foundation is DevOps ready with infrastructure as code and automation to help your business deliver software using the latest automation tools and techniques.

Cloud Operations

We build your Cloud Foundation production ready and with base operations capability. Self manage or engage Veriday Managed Cloud Services.

Cloud Training

You don't have to have the depth of skills yet or the capacity internally. We help you get started on the right path and provide the right cloud training your team needs.
