A who's who of amazing clients

Veriday understands that organizations need the ability to enhance their technology platforms so their teams can be more productive. The traditional content management systems and portals have evolved to be more robust. There is an increasing demand to go beyond the conventional and become a full digital experience platform.

Liferay Consulting and Development Services

Veriday has been successfully designing and implementing solutions using Liferay since 2005. We are one of Liferay's longest partners because we do more than just development. We consult and advise businesses and how to utilize Liferay platform better and help train teams to ensure companies have the confidence and the abilities to use Liferay to its full capabilities.

For the 10th year in a row, Gartner has ranked Liferay as at the top of their list for "Critical Capabilities of Horizontal Portals Gartner, one of the world's top technology research firms, regularly releases information technology insights for IT and other business leaders.
